## WORK EXPERIENCE

### Full Stack (MERN, FLUTTER)

#### Nestorbird

05/2022 - Present

Mohali

##### Achievements/Tasks

- Recognized as a standout Full Stack developer with a track record of excellence, having earned three prestigious awards in a single year: "Rising Star," "Leader's Choice," and "Unmatchable Dedication." These accolades underscore my commitment to delivering exceptional results and showcase my leadership
- Proven leadership skills as a Flutter MERN developer, guiding teams to successful project delivery.
- Developed and maintained modern, secure, and feature rich mobile and web apps for android & web platforms provided efficient product deliveries on time.
- Worked as a Tech Leader and diagnosed performance issues and fixed bugs including crash issues, increased application functionality by 80%

### Project Engineer

#### Maxval Technology

02/2021 - 05/2022

##### Achievements/Tasks

- Managed and successfully delivered over 35 projects in the field of Internet of Things (IoT), ranging from concept to completion, within established budgets and timelines.
- Developed project plans, including scope definition, resource allocation, and risk management, to ensure projects were executed efficiently and met client requirements.

## PERSONAL PROJECTS

### GETPOS (Product-Based Startup) App live on Play Store

- Developed and led the implementation of a cutting-edge POS system using Flutter, Dart, and Hive, delivering seamless offline functionality for enhanced user experience and uninterrupted operations.
- Successfully designed and integrated Hive, a NoSQL database solution, to store and synchronize critical data, enabling real-time updates and smooth transition between online and offline modes.
- Integrated Pay Stack payment gateways in App
- Demonstrated strong problem-solving skills by resolving complex technical issues and optimizing codebase for scalability, maintainability, and future expansion.

### Agribora (Kenya, Nigeria – App live on Play Store)

- Built and launched a fully offline-capable agricultural app used by field agents across Africa and Kenya
- Integrated complex local data sync logic with Firebase and Frappe Backend, supporting multilingual interfaces.
- Optimized app performance on low-end Android devices.
